# 1. Details of the Offer

## 1.1 Offer of New Options

Pursuant to this Prospectus, the Company is inviting a number of parties in consideration for marketing and communication services provided to the Company to apply for New Options at the direction of the Company.

By this Prospectus, the Company invites certain service providers identified by the Directors to apply for up to 20,000,000 New Options.

As the New Options are being issued in consideration for services provided, no cash consideration is payable for the issue of the New Options. Accordingly, no cash will be raised by the issue of the New Options. The offer of New Options will only be extended to specific parties on invitation from the Directors. Application Forms will only be provided by the Company to these parties.

The terms and conditions of the New Options are in Section 4.1. Shares issued upon exercise of the New Options will rank equally with the Company's existing Shares on issue. A summary of the rights and liabilities attaching to Shares is in Section 4.3.

Please refer to Section 1.5 for details on how to apply for New Options.

## 1.2 Offer of the RMXOG Option

In addition to the offer of New Options summarised in Section 1.1, the Company is inviting a party nominated by the Directors to apply for one RMXOG Option.

At a general meeting of the Company held on 20 September 2016, Shareholders approved the issue of 40,000,000 RMXOG Options (**Broker Options**) to PAC Partners Pty Ltd or its nominees.

38,250,000 of the Broker Options were issued on 22 November 2016, and the remaining 1,750,000 Broker Options were issued on 30 November 2016.

The issue of the Broker Options was undertaken without disclosure to investors under Part 6D of the Corporations Act.

By this Prospectus, the Company invites a selected investor to apply for one RMXOG Option for nil cash consideration. An Application Form will only be provided by the Company to that selected party. As summarised in Section 1.3 below, the purpose of this offer is to remove the on-sale restrictions and facilitate secondary trading of the Broker Options.

The terms and conditions of the RMXOG Option are in Section 4.2. The Share issued upon exercise of the RMXOG Option will rank equally with the Company's existing Shares on issue. A summary of the rights and liabilities attaching to Shares is in Section 4.3.

Please refer to Section 1.5 for details on how to apply for the RMXOG Option.

## 1.3 Purpose of the Prospectus

This Prospectus has been issued to:

- (a) facilitate secondary trading of the New Options to be issued under the Offer. A prospectus is required under the Corporations Act to enable persons who are issued the New Options to on-sell those New Options within 12 months of their issue. The Company will not issue the New Options with the purpose of the persons to whom they are issued selling or transferring those New Options, or granting, issuing or transferring interests in those New Options within 12 months of the issue, but this Prospectus provides them the ability to do so should they wish; and
- (b) facilitate secondary trading of the Shares to be issued upon exercise of the New Options to be issued under the Offer. Issuing the New Options under this Prospectus will enable persons who are issued the New Options to on-sell the Shares issued on exercise of the New Options pursuant to ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80.

In addition, generally, section 707(3) of the Corporations Act requires that a prospectus must be issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months of the date of their issue. Section 708A(11) of the Corporations Act provides an exemption from this general requirement where:

- (a) the relevant securities are in a class of securities of the company that are already quoted on ASX;
- (b) a prospectus is lodged with ASIC either:
  - (i) on or after the day on which the relevant securities were issued; or
  - (ii) before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (c) the prospectus is for an offer of securities issued by the company that are in the same class of securities as the relevant securities.

An additional purpose of this Prospectus is therefore to comply with section 708A(11) of the Corporations Act so that the holders of the Broker Options, if they choose to, can sell the Broker Options within the next twelve months without the issue of a prospectus. The issue of the Broker Options was not undertaken by the Company with the purpose of holders selling or transferring the Broker Options. However, the Directors consider that the holders should be able to sell the Broker Options should they wish to do so, without being required to issue a prospectus.

Accordingly, the purpose of this Prospectus is to:

- (a) make the Offer;
- (b) ensure that the on-sale of New Options and Broker Options does not breach section 707(3) of the Corporations Act; and
- (c) ensure that the on-sale of the underlying Shares to be issued upon the exercise of the New Options is in accordance with ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80.

No funds will be raised under the Offer. The total estimated expenses of the Offer of \$9,400 will be paid by the Company from its cash reserves.

## 1.4 Opening and Closing Dates

The Opening Date of the Offer will be 8 December 2016, following the lodgement of the Prospectus with the ASIC and ASX. The Closing Date will be 5pm (WST) on 9 December 2016. The Offer may be accepted in whole or in part prior to the Closing Date subject to the Directors' discretion to close the Offer early or extend the Closing Date (as the case may be), should it be considered by them necessary to do so.

## 1.5 Application Forms

Persons eligible to participate in the Offer will be provided a copy of this Prospectus and an Application Form by the Company.

Completed Application Forms must be received by the Company prior to the Closing Date. Application Forms should be sent to the address set out on the Application Form, with sufficient time to be received by or on behalf of the Company by no later than 5:00pm (WST) on the Closing Date.

The Company reserves the right to close the Offer early.

If you are in doubt as to the course of action, you should consult your professional advisor.

Acceptance of a completed Application Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Options accepted by the Company. The Application Form does not need to be signed to be a binding acceptance of Options.

If the Application Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the Acceptance as valid and how to construe, amend or complete the Application Form, is final.

By completing and returning your Application Form, you will be deemed to have represented and warranted on behalf of yourself or each person on whose account you are acting that the law in your place of residence and/or where you have been given the Prospectus, does not prohibit you from being given the Prospectus and that you:

- (a) agree to be bound by the terms of the Offer;
- (b) declare that all details and statements in the Application Form are complete and accurate;
- (c) declare that you are over 18 years of age and have full legal capacity and power to perform all your rights and obligations under the Application Form;
- (d) authorise the Company and its respective officers or agents, to do anything on your behalf necessary for the New Options or RMXOG Option (as applicable) to be issued to you, including to act on instructions of the Company's Share Registry upon using the contact details set out in the Application Form;
- (e) have a registered address in Australia;
- (f) acknowledge that the information contained in, or accompanying, the Prospectus is not investment or financial product advice or a recommendation that Options are suitable for you given your investment objectives, financial situation or particular needs; and

- (g) acknowledge that the New Options and the RMXOG Option (as applicable) have not, and will not be, registered under the securities laws in any other jurisdictions outside Australia.

## **1.6 Issue date**

The New Options and the RMXOG Option will be issued only after the Offer has closed and the ASX has granted permission for the New Options and the RMXOG Option to be quoted. It is expected that New Options and RMXOG Option will be issued on 9 December 2016 and trading of the New Options and RMXOG Option on the ASX is expected to commence on 12 December 2016.

Security holder statements will be dispatched at the end of the calendar month following the issue of the Securities under this Prospectus.

It is the responsibility of Applicants to determine their allocation prior to trading in the New Options and RMXOG Option. Applicants who sell New Options or the RMXOG Option before they receive their holding statements do so at their own risk.

## **1.7 ASX quotation**

Application will be made within seven days of the date of issue of this Prospectus for the New Options and RMXOG Option to be granted official quotation by ASX. If such an application is not made within these seven days, or official quotation of the New Options or RMXOG Option is not granted by ASX within three months of the date of this Prospectus, any issue or transfer of the New Options or RMXOG Option (or Shares issued on exercise of the New Options) will be void.

The fact that ASX may agree to grant official quotation of the New Options or RMXOG Option is not to be taken in any way as an indication of the merits of the Company or the New Options or the RMXOG Option. ASX takes no responsibility for the contents of this Prospectus.

## **1.8 CHESS**

The Company participates in the Clearing House Electronic Sub-register System, known as CHESS. ASX Settlement Pty Limited, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, Applicants will not receive a certificate but will receive a statement of their holding of New Options or the RMXOG Option (as applicable).

If you are broker sponsored, ASX Settlement Pty Limited will send you a CHESS statement.

The CHESS statement will specify the number of Options issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Options, including a notice to exercise the Options.

If you are registered on the Issuer Sponsored sub-register, your statement will be despatched by Computershare Investor Services Pty Limited and will contain the number of Options issued to you under this Prospectus and your security holder reference number.

A CHESS statement or Issuer Sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their Shareholding

changes. Shareholders may request a statement at any other time; however, a charge may be made for additional statements.

## **1.9 Effect on control of the Company**

The Company is of the view that the Offer will not affect the control (as defined by section 50AA of the Corporations Act) of the Company. No investor or existing Shareholder will have a voting power greater than 20% as a result of the completion of the Offer.

## **1.10 Residents outside Australia**

This Prospectus, and any accompanying Application Form, do not, and is not intended to, constitute an offer of Options in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus or the Options. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

## **1.11 Risk factors**

An investment in Securities should be regarded as speculative. In addition to the general risks applicable to all investments in listed securities, there are certain specific risks associated with an investment in the Company which are detailed in Section 3.

## **1.12 Taxation implications**

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for Options.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, Applicants should consult their professional tax adviser in connection with subscribing for Options.

## **1.13 Major activities and financial information**

A summary of the major activities and financial information relating to the Company, for the financial year ended 30 June 2016, can be found in the Company's Annual Report announced on ASX on 30 September 2016 and, for the half-year ended 31 December 2015, the Half Year Accounts announced on ASX on 15 March 2016. The Company's continuous disclosure notices (i.e. ASX announcements) since 30 September 2016 are listed in Section 4.6. Copies of these documents are available free of charge from the Company. The Directors strongly recommend that Applicants review these and all other announcements prior to deciding whether or not to participate in the Offer.

## **1.14 Privacy**

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Acceptance and, if the Acceptance is successful, to administer the Applicant's Shareholding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the share registry, the Company's related bodies corporate, agents, contractors and third

party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on the Application Form, the Company may not be able to accept or process your Acceptance or Application (as applicable).

An Applicant has an entitlement to gain access to the information that the Company holds about that person subject to certain exemptions under law. A fee may be charged for access. Access requests must be made in writing to the Company's registered office.

## 3. Risk Factors

Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. The Company and its controlled entities have implemented appropriate strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Company's current primary focus is the Red Valley Lithium Project in the USA.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which Shareholders need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Shareholders should carefully consider the following factors in addition to the other information presented in this Prospectus.

The principal risks include, but are not limited to, the following:

### 3.1 Risks specific to the Company

#### (a) Exploration risk

Mineral exploration by its nature is a high risk activity and there can be no guarantee of exploration success on the Company's projects. There can be no assurance that exploration of the tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

Further, exploration involves certain operating hazards, such as failure and or breakdown of equipment, adverse geological, seismic and geotechnical conditions, industrial accidents, labour disputes, adverse weather conditions, pollution and other environmental hazards and risks.

#### (b) Emphasis of matter

The Company's 2016 Annual Report contains an 'emphasis of matter' note. Based on the number of inherent uncertainties relating to the Company's future plans, including doubt as to the ability to raise equity capital in the current market, there is material uncertainty which may cast significant doubt regarding the ability of the Company to continue as a going concern and therefore, whether it will be able to realise its assets and extinguish its liabilities in the normal course of business.

Notwithstanding the 'emphasis of matter' note included in the Company's 2016 Annual Report, the Directors believe that there are reasonable grounds for the view that the Company will be able to continue as a going concern.

(c) **Budget risk**

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions.

(d) **Additional requirements for capital**

The future capital requirements of the Company will depend on many factors including the results of future exploration and business development activities. The Company believes its available cash and resources should be adequate to fund its obligations in respect of its exploration work program, business development activities and other objectives for the next 12 months. Should the Company's exploration program be successful or the Company identify additional projects it may wish to pursue, additional funds will be required to advance the Company's projects.

Additional funding may be raised by the Company via the issues of equity, debt or a combination of debt and equity or asset sales. Any additional equity financing will dilute Shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities.

If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its programs or enter into joint venture arrangements to reduce expenditure and this could have a material adverse effect on the Company's activities. Unfavourable market conditions may adversely affect the Company's ability to raise additional funding regardless of the Company's operating performance.

(e) **Completion risk**

On 2 December 2016, the Company announced that it had entered into a transaction with Bluebird Merchant Ventures Ltd (**Bluebird**) pursuant to which Bluebird agreed to acquire the Company's 75% interest in the Batangas Gold Project. Bluebird is currently the Company's joint venture partner in the Batangas Gold Project.

Under the terms of the agreement, Bluebird shall acquire the remaining balance of the Batangas Gold Project in exchange for 1,250,000 fully paid ordinary shares in Bluebird plus a perpetual 1% net smelter production royalty over the Batangas Gold Project. Bluebird is a Philippines based company listed on the main board of the London Stock Exchange.

Furthermore, should Bluebird sell 50% or more of the Bantagas Gold Project within 12 months of settlement under the agreement then it shall share the net proceeds of such sale with the Company on a 50/50 basis.

It is anticipated that completion will occur shortly. As with any agreement however, there is a risk that completion may not occur for any reason. Should this risk eventuate, the Company will again reconsider the best way to optimise the Batangas Gold Project, and potentially undertake a whole or partial disposal or other risk mitigation strategy with another party.

**(f) New projects and acquisitions and joint ventures**

On 26 October 2016, the Company announced that it had entered into an exploration and earn-in agreement in respect of the Red Valley Lithium Project, a lithium-brine project located in Utah, United States of America.

The Company will continue to actively pursue and assess, other new business opportunities particularly those in the resources sector. These new business opportunities may take the form of direct project acquisitions, joint ventures, farm-ins, acquisition of tenements/permits, or direct equity participation.

If an acquisition is completed, the Directors will need to reassess, at that time, the funding allocated to current projects and new projects, which may result in the Company reallocating funds from other projects and/or the raising of additional capital (if available).

Furthermore, any new project or business acquisition may change the risk profile of the Company, particularly if the new project is located in another jurisdiction, involves a new commodity and/or changes the Company's capital/funding requirements.

Should the Company propose or complete the acquisition of a new project or business activity, investors should re-assess their investment in the Company in light of the new project/business activity.

**(g) Resource estimates**

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates that were valid when originally made may alter significantly when new information or techniques become available.

In addition, by their very nature, resource estimates are imprecise and depend on interpretations which may prove to be inaccurate, and whilst the Company will employ industry-standard techniques including compliance with the JORC Code to reduce the resource estimation risk, there is no assurance that this approach will alter the risk. As further information becomes available through additional fieldwork and analysis, resource estimates may change. This may result in alterations to mining and development plans which may in turn adversely affect the Company.

**(h) Risk of not obtaining required permits**

The future operations of the Company, including in respect of the Red Valley Lithium Project, may require permits from various governmental authorities and will be governed by laws and regulations governing prospecting, development, mining, production, export, taxes, labour standards, occupational health, waste disposal, land use, environmental protections, mine safety and other matters. There is no assurance that the Company will be able to obtain all necessary permits and approvals that may be required to undertake exploration activity or commence construction or operation of lithium extraction facilities on its lithium properties or any other properties the Company may acquire in the future. To the extent such approvals are required and not obtained, the Company may be curtailed or prohibited from commencing or continuing with mining operations, or proceeding with any

future exploration or development of its lithium properties or other properties the Company may acquire in the future.

(i) **Joint venture risk**

The Company is currently, and may in the future become a party to joint venture agreements governing the exploration and development of its projects. There is a risk that one of the Company's joint venture partners may default in their joint venture obligations or not act in the best interests of the joint venture. This may have an adverse effect on the interests and prospects of the Company.

Further, the Company's earn-in agreement in respect of the Red Valley Project is subject to the execution of formal documentation. There can be no certainty that the parties will be able to settle the formal documentation in respect thereof. Failure to settle the terms of the formal documentation may result in termination of the joint venture and/or a potential dispute resolution process.

(j) **Commodity price volatility**

If the Company achieves success leading to mineral production, the revenue it will derive through the sale of commodities exposes the potential income of the Company to price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company including the international supply and demand for commodities, the quality of the minerals produced, actions taken by governments, forward selling activities and other macro-economic factors.

(k) **Environmental risk**

The Company's projects are subject to rules and regulations regarding environmental matters and the discharge of hazardous wastes and materials. As with all mineral projects, the Company's projects are expected to have a variety of environmental impacts should development proceed. Development of any of the Company's projects will be dependent on the Company satisfying environmental guidelines and, where required, being approved by government authorities.

The Company intends to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws, but may still be subject to accidents or other unforeseen events which may compromise its environmental performance and which may have adverse financial implications.

## 3.2 **General Risks**

(a) **Market conditions and other economic risks**

General economic conditions, movements in interest and inflation rates, commodity prices and currency exchange rates may have an adverse effect on the Company's operations and any future development activities, as well as on its ability to fund those activities.

The price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general.

Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(b) **Changes in government policies and legislation**

Any material adverse changes in government policies or legislation of Australia or the United States of America or any other country that the Company may acquire economic interests in may affect the viability and profitability of the Company.

(c) **Unforeseen expenditure risk**

Expenditure may need to be incurred that has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any such additional expenditure requirements, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company.

(d) **Insurance**

The Company will, where possible and economically practicable, endeavour to mitigate some project and business risks by procuring relevant insurance cover. However, such insurance cover may not always be available or economically justifiable and the policy provisions and exclusions may render a particular claim by the Company outside the scope of the insurance cover.

### **3.3 Investment speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Options offered under this Prospectus.

Therefore, the Options to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Options.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Options pursuant to this Prospectus.

(h) **Dividend reinvestment and share plans**

The Directors may grant to Shareholders or any class of Shareholders the right to elect that dividends payable by the Company be reinvested, including by way of subscription for fully paid Shares in the Company or by foregoing any dividends that may be payable on all or some of the Shares held by that member and to receive instead some other entitlement, including the issue of Shares.

#### **4.5 Company is a disclosing entity**

The Company is a disclosing entity under the Corporations Act. It is subject to regular reporting and disclosure obligations under both the Corporations Act and the Listing Rules. These obligations require the Company to notify ASX of information about specific events and matters as they arise for the purpose of ASX making the information available to the securities market conducted by ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain limited exceptions), to notify ASX once it is, or becomes aware of information concerning the Company which a reasonable person would expect to have a material effect on the price or value of the Shares.
